

Australian Galloway Association Inc

Registration Procedures

Registration of an animal can be made in two ways:

1. It can be made on the Application for Registration form and be accompanied by the applicable fee payment. (See the Association's fee schedule for the range of fees which may be payable.)
2. It can be made using the online registration system (accessed via the Association's home page on the website www.galloway.asn.au – contact the Association for a password). All applicable forms which may be required for registration (eg sire permit, Miniature Galloway Hip Height Recording Form) will need to be sent to the Association along with the applicable fee payment.

Registration is a requirement of Bylaw 1.3 and any forms required are available on request from the Association, or from the AGA website in the forms/publication section.

Application for Registration Form

Dam

- Name - write the dam's name in full (stud prefix and name)
- Identity Number is shown on the right hand side of the dam's registration certificate and in most cases is the same as the tattoo of the animal.
- Permit - if the dam is leased, you will require a Dam Permit signed by the registered owner of the dam, giving you permission to register a calf born from this dam. If the calf is the result of an embryo you may require a permit from the registered owner of the dam. A fee applies when a dam permit is required.

Sire

- *Before a calf can be registered, the sire's DNA profile must be on record with the Association.* This is done by way of a tail hair sample which is analysed and a report sent to the Association showing the DNA profile. Test cards, instructions and a request form are available from the Association.
- Name – write the sire's name in full (stud prefix and name)
- Identity Number is shown on the right hand side of the registration certificate and in most cases is the same as the tattoo of the animal.
- Permit – if the sire is leased or Semen has been used, you will require a Sire Permit from the registered owner of the sire, or a Semen Sire Permit from the registered owner of the semen, giving you permission to register a calf born from this sire. If the calf is the result of an embryo you may require a permit

Registration Procedures

from the registered owner of the sire. A fee applies when a Sire Permit, Semen Sire Permit or Embryo Transfer Certificate is required.

Calf

- Name – write the calf’s individual name. (Your stud name is already written at the top of the Application for Registration form.)
- Sex – F for female, M for male. If the calf you are registering is a bull calf, a tail hair sample must accompany the registration so sire verification and a DNA profile can be recorded.
- D.O.B – please use two digits for day, month and year, eg 25/09/12
- Tattoo
 - Your herd tattoo is already written at the top of the Application for Registration form so no need to include it again.
 - Year Tattoo - the Association uses the Australian Standard Year Letter, for example V for 2024, W for 2025, X for 2026 etc
 - Tattoo Number – the unique number you have allocated to the calf. Take care to avoid duplication within a year. For example using the year letters V43 and W43 represents two different calves born in different years. Please note that all calves must be tattooed prior to 9 months of age
 - *This tattoo must be identical to that which is placed in the ear of the animal eg ABC W43. It is vital to accurately record the exact tattoo as this appears on the registration certificate and is the animal’s identity for transfers, showing and sales.*
- Colour Refer to the appropriate abbreviate/response in the
- Number in Birth instruction section at the base of the Application for
- Calving Ease Registration form
- Miniature - To be registered as a Miniature a bull calf must be no more than 110cm at the hip at between 10 and 12 months of age and a heifer calf must be no more that 105cm at the hip at between 10 and 12 months of age. If applying to register a Miniature before it is 10 months of age, please check the Frame Score Chart (can be found on the reverse of the Miniature Galloway Hip Height Recording Form) that the calf is within the required height requirements.
- Register – Y if you require a registration certificate, N if you do not.
- Mismarks – if there are any mismarks on the animal, please record them according to the abbreviate on the bottom of the form. Please note this does

Registration Procedures

not only apply to Belted Galloways, but also solid coloured animals, which may, for example, have a white splash on their belly forward of the navel.

In the case of a Belted Galloway bull, a clear photo of both sides of the bull and also ensuring the feet can be clearly seen is required with the registration paperwork.

It is important that all sections are completed and that care is taken to ensure the information is correct.

Once you have completed the details on the form, please sign the Application for Registration form and send it together with the appropriate fee to the AGA office for processing.
